

REMARKS

The Election with Amendment is made in response to the Restriction Requirement mailed April 11, 2007 in which applicant was required to elect one of two groups of claims identified by the Examiner.

Without prejudice, applicant hereby elects, without traverse, the Group I claims 1-20 and 30-34 drawn to a method for calculating a position of a mobile communication equipment based on noised level reduced signal phase by using carrier signal. The other claims are cancelled while preserving applicant's right to file a divisional on the other group.

The remaining claims have been amended to remove preambles, to remove means-plus-function claim language to avoid a 35 U.S.C. §112, sixth paragraph, construction, and to remove other informalities such as "and/or" language from the claims.

Examination on the merits is requested.
